Dear Families,

**Synergy Dance Festival**

This is a very exciting week for our dance group as they put the final touches on what promises to be a fantastic performance. There are two shows open to families, Wednesday 3rd at 11am and Thursday 4th at 7:30pm and it is all being held at the Evan Theatre, Penrith Panthers, Mulgoa Rd Penrith.

I can’t wait to see our performance entitled ‘Pump it Up’ and wish them all the very best. A huge thank you to Mrs Riggs, Mrs Kean and Ms Mason, whose commitment and dedication to our students has brought about this fantastic opportunity.

**School Reports**

Just a reminder that we will be sending our half yearly reports home in week 10 of this term so that families have the opportunity to read about what their children have been doing and the progress they have made. We will also be inviting families up to the school in the first two weeks of term 3, so that families can see their children’s classrooms, look through their books and allow teachers to show you samples of your children’s work as well as share learning goals for the second half of the year. I hope everyone takes the opportunity to be part of the children’s learning.

**21st Century Learning**

Over the past year we have been working extremely hard to modernise the way we teach in our classes. This is so we can better differentiate activities to meet individual student needs and to ensure that all students leave Lethbridge Park with the skills and knowledge to be successful in today’s workforce.

In the last year we have installed wireless internet across the school, incorporated the use of ipads into every classroom, used smart phone apps to help communicate better with our families and purchased an XO laptop for every child in the school.

Our next step forward is the use of QR codes. You will have noticed that we have been using QR codes in our newsletter for quite a while, but if you have never used a QR code before or don’t know what they are let me explain. A QR code is simply a link that connects you to a photo, movie clip or even a sample of your child’s work. When you scan a QR code using a smart phone it will connect you to things that we have been doing in class. This is just another way we are hoping to bring you into our classes and show you that great things your children are doing.

Our Library Upgrade

There are some exciting changes that are going to be happening with the library.

This process is going to take Mrs Garcia and Mrs Lopez around 12 weeks to complete. We need to have everything ready for Tuesday 25\textsuperscript{th} August 2015.

Because of this we are not allowing students to borrow during this time as all books and resources need to be accounted for during the transition from OASIS to OLIVER.

We are also URGENTLY asking for all library books to be returned to the library. It doesn’t matter if they are damaged or torn as accidents do happen. But we do need the barcode from the book to put through our system.

Thank you for your help

Sports in Schools is an AMAZING activity. We learn how to communicate, use teamwork and have fun. The most memorable moment is when my group won at building a skeleton’s body. We won because we were communicating and working as a team.

Sports in School is all about team work and communicating! I have been attending the SISA program and I enjoyed working with all my peers to figure out and get through all the activities.
